

CANCELLATION NOTICE

LF 133A, Fabrication Work Request Supplement Sheet

Cancelled effective 04-30-08.

LF 133A, Fabrication Work Request Supplement Sheet (Rev. Aug. 2004), was the tool used to record and forward additional information to the Fabrication Technology organization to process requests for services. Because its use has been replaced by the release of LF 282 and LF 283, it is now obsolete and is officially cancelled.
